Incorporated in the year 2019, SurgiQa Care (OPC) Pvt. Ltd. is an ISO 9001: 2005 certified company which is a pioneer Exporter, Supplier of top class Medical Consumables Manufactured in accordance with the medical industry set standards and quality principles of the industry our offered products are highly known for their applications and advantages in hospitals, medical centres and other such nursing homes. With a view to maintaining premium quality and hygienic nature, these are developed under the expert guidance and vigilance of our professionals making use of high-grade raw inputs and other required factory materials.

Our products are precisely manufactured using superior-quality raw materials with the help of cutting-edge technology in adherence to international quality standards. This range is highly appreciated for its perfect finish, easy usage and sterility.

We export a variety of product ranges the infusion, Urology Anesthesia & Respiratory, Gynecology Orthopaedic Bandages, Wound Care & Dressings, Medical Kits, Surgical Drapes, Hospital Non-woven wear etc. Widely known for their hygienic preparation and safe usage these products are of a high demand in the industry

We are assisted by a team of professionals, which strives to assure our customers high-quality range of products. Our team procures certified and tested material from authorized vendors of the market. Finished products are finally tested on the basis of various quality parameters. Thus, owing to a stringent quality approach, customer-centric business and ethical practices, we have mustered a large number of customers in the market.

Infusion Set

Features -

- Sharp piercing spike for easy insertion in I.V. container.
- Needle size G: 21/22
- Cylindrical collapsible drip chamber to visualise the flow rate.
- Disc-type fluid filter to filter any particulate matter in the I.V. fluid.
- 150cm. long, smooth kink-resistant tubing with an efficient roller controller for accurate and unrestricted flow.
- Rubber flash ball provided for extra medication.
- Compatible with infusion pump.
- Sterile individual ribbon packed.
- Available in HM-Poly Pouch/Ribbon Poly Pouch

Optional -

- Tube length as requested.
- Y injection site.
- Luer Lock.
- Vein Needle.
- Latex free Flash ball type injection site.

Blood Transfusion Set

Features -

- Cylindrical drip chamber provided with 200 micron filter to prevent the passage of any clot into the chamber.
- Sharp non-vented spike suitable for blood bags and all types of standard blood containers.
- Available with or without 18 G vein needle.
- Very efficient roller controller for accurate flow rate.
- 150 cm. kink-resistant tube.
- Efficient roller controller for accurate adjustment of infusion rate.
- Sterile and individually packed.

Measured VolumeSet

Features -

- Flexible, Transparent & soft cylindrical measured volume chamber of 110ml / 150 ml Efficient roller controller for better flow control.
- Available with or without 'Y' connection.
- Soft and Kink Resistant tube..Bulb Latex or Tube latex for easy flushing
- Separate plug for extra medication and continuous change over.
- Needle size G: 23
- EO Sterile
- Available in HM-Poly Pouch/Ribbon Poly Pouch.

Optional -

- Tube length as requested.
- Y injection site.
- Luer Lock.
- Vein Needle.

Disposable Syringe

Features -

- With Disposable Hypodermic Needle.
- Made from Medical grade Transparent Polypropylene.
- Friction free movement of plunger ensures proper vacuum and no dead space.
- Consist of: Barrel, Plunger, and Standard Piston.
- EO Sterile
- Available in Ribbon & Blister Pack
- Available in 1ml, 2m, 3ml, 5ml, 10ml, 20ml & 50ml
- Available with needle sizes 16G, 18G, 20G, 21G, 22G, 23G, 24G, 26G & Without needle.

Scalp Vein Set

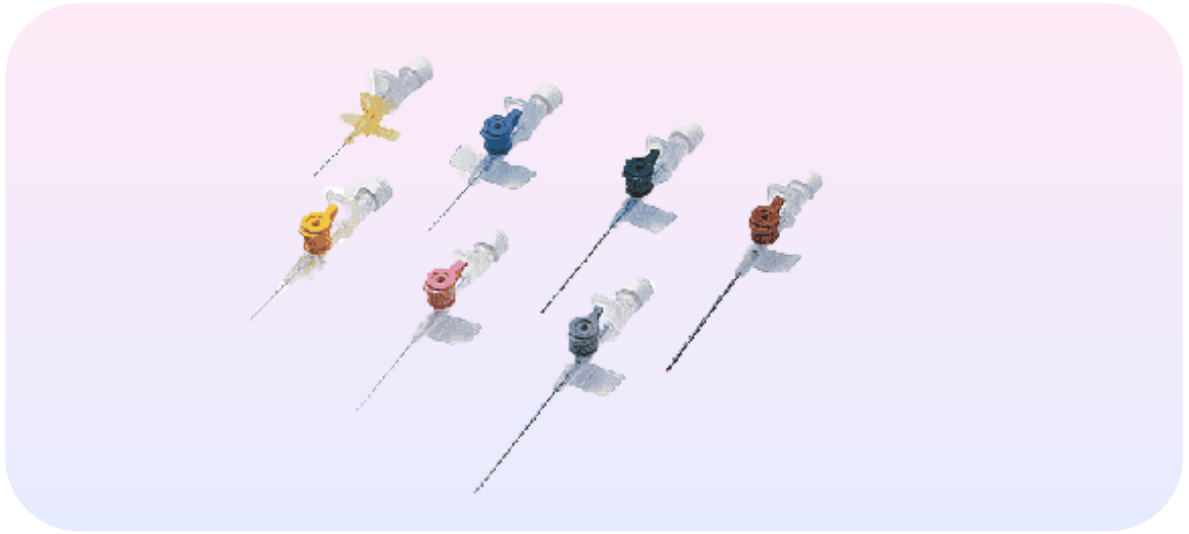

Features -

- Needle is fixed into wings on an automatic assembly machine.
- Made of DEPH free PVC.
- Soft flexible wings for easy gripping and secure positioning on the cannulation.
- Stainless settle needle sharp tip lancet cut needle with high lumen flow.
- Needle coated with specially formulated silicon solution for smooth in insertion
- Pvc tube is soft, flexible and kink resistance.
- Color-coded wings for easy identification of gauze.
- Sterile/Non - Pyrogenic/single use

INTRAVENOUS CANNULA (IV CANNULA).

Features -

- Needle is fixed into wings on an automatic assembly machine.
- Made of DEPH free PVC.
- Soft flexible wings for easy gripping and secure positioning on the cannulation.
- Stainless settle needle sharp tip lancet cut needle with high lumen flow.
- Needle coated with specially formulated silicon solution for smooth in insertion
- Pvc tube is soft, flexible and kink resistance.
- Color-coded wings for easy identification of gauge.
- Sterile/Non - Pyrogenic/single use

Color Code	Size

Products..

- Cannula with wings & injection Port
- Cannula with wings & without Injection port
- Cannula without wings & without Injection port
- Cannula with three-way - stopcock

HYPODERMIC DISPOSABLE NEEDLE

Features -

- Material: High-quality stainless steel.
- Virtually painless injection.
- Large inner diameter, high flow.
- Color-coded hub by size for easy identification.
- Semi-transparent needle-hub for the cleanness of flashback.
- EO Sterile.
- Individual Blister Pack. Available in 16G - 27G sizes.

Sizes with color code

IV FLOW REGULATOR

Features -

- The flow regulator is used to regulate the flow of I.V. fluid from the infusion set
- The intravenous cannula and having a smooth kink resistance tube
- Ensures a constant flow rate.
- Precise control of the flow rate of IV fluids with a range of 5 to 250 ml/hr.
- With "Y" injection port (latex) for intermittent medication.
- Soft and kink-resistant PVC tubing.

URINE COLLECTION BAG

Features -

- Closed urine drainage system for short and long-term use.
- Manufactured from soft clinical grade PVC sheeting.
- Reinforced eyelets allow easy hanging and provide maximum protection against tearing.
- Push/Pull type bottom outlet allows convenient emptying.
- Kink-resistant 90cm tube provided with the universal tapered connector.
- Easy to read scale for quick determination of urine volume.

Available in following configuration:

2000 ml

- with NRV and bottom outlet.
- with NRV, bottom outlet and carrying hanger.
- with NRV and 'T' tap bottom outlet.
- with NRV and without outlet.
- without NRV and without outlet.

1500 ml.

- with NRV and without outlet.
- without NRV and without outlet.

CAPACITY
2000 ML. & 1500ML.

Tube Length	
Standard	90 Cm
Optional	110 Cm 130 Cm

URINE COLLECTION BAG WITH MEASURED VOLUME SET

Features -

- Manufactured from Medical grade material.
- Designed for accurate measurement of hourly urine output during an examination of the patient.
- Urine bag attached directly with the measured volume meter ensures auto overflow and convenience to empty the measured volume meter in the bag.
- Capacity of urine bag – 2000ml.
- Sterile and individually packed in a box.
- EO Sterile Available in HM Poly Pouch/Ribbon Poly Pouch.

Sizes	Capacity of Chamber	Capacity of Bag
Paediatric	100 ML.	800 ML.
Adult	250 ML.	2000 ML.

OXYGEN MASK

Features -

- The moulded face mask is manufactured from non-toxic, non-irritant medical grade P.V.C.
- Provided with an adjustable elastic strap for proper positioning of mask on the nasal area.
- Swivel connector for convenience of attachment to the oxygen tube.
- The proximal end of the tube is fitted with a soft funnel shape connector for easy connection to an oxygen source.
- EO Sterile.
- Individually packed in poly bag.

Sizes
Paediatric
Adult

NEBULIZER KIT

Features -

- Designed to be used with any standard Nebulizer kit.
- Made from a soft clear plastic and are anatomically formed for comfort
- It has an Elastic Strap for added comfort.
- Each Mask is individually sealed and wrapped for safety.
- The Nebulizer Kit just plugs into the standard fitting located at the bottom of the Mask.
- Masks are contoured to fit the face of adult and are very comfortable to wear.
- EO Sterile

Sizes
Paediatric
Adult

NASAL OXYGEN CANNULA

Features -

- Star lumen tube for better connection and avoid blockage.
- Efficiently administration of oxygen to the patient.
- Bio-compatible material of soft twin prong nasal tip ensure equal distribution of oxygen
- Kink resistant medical grade tubing.

Sizes
Paediatric
Adult

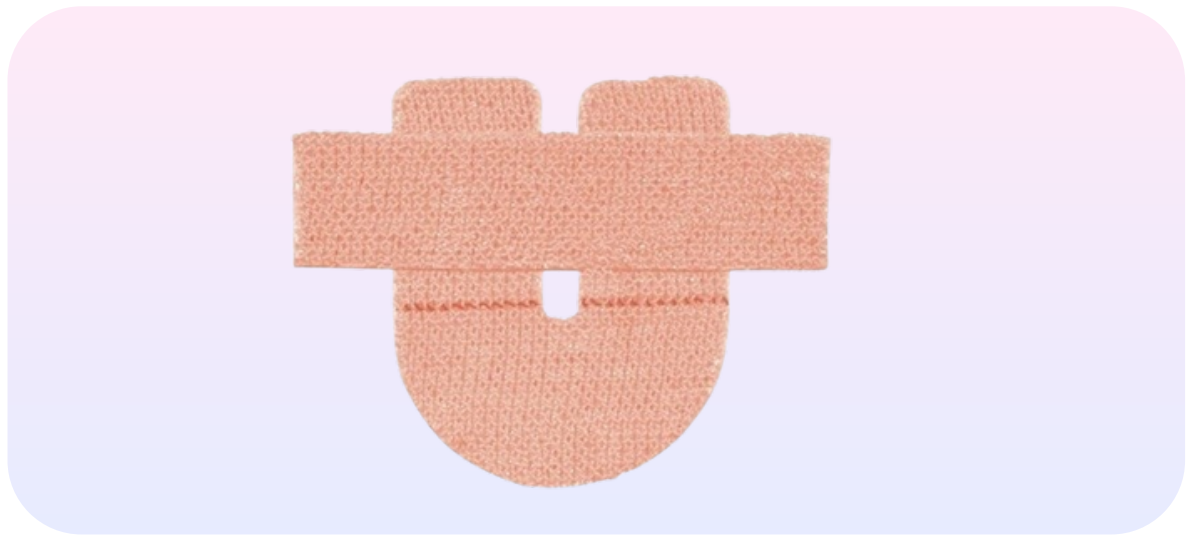

RESPIRATORY EXERCISER

Features -

- Enhances endurance of both inspiratory and expiratory muscles.
- Improves respiratory parameters, Improves maximal exercise capacity.
- Improves cardio-pulmonary status of the patient, enhancing the overall fitness and well being.
- Increases circulation of hormones in the blood which increase the blood flow to the heart, brain and lungs.
- Sustained deep breathing has been shown to relieve anxiety and fight stress.
- Improves oxygenation of blood, reduces fat levels by burning calories
- Assists pulmonary rehabilitation in patients with COPD, improves the quality of their life.
- Restores and maintains lung capacity in post operative patients by slow, synchronized deep breathing.
- Allows visual calibration and estimation of the patients progress.

CANNULA FIXATOR

Features -

- Well-designed shape
- Saved nursing time, Convenient
- Efficient use
- Helps in preventing pain
- Stretches with body movements
- Allows air circulation

CREPE BANDAGE

Features -

- Does not hamper muscular and joint flexibility.
- Superior Elasticity, controlled uniform & smooth Pressure.
- Permits normal skin breathing.
- Crepe is used to treat general surgical, orthopaedic and sports injuries.
- Crepe is used to provide light compression for muscular support.
- Permits centre line accurate to overlap.

LATEX EXAMINATION GLOVES

Features -

- Powdered Gloves
- For surgical purposes
- Prevent contamination
- Available in white colour
- All sizes available small, Medium, Large

GLOVE'S

LATEX SURGICAL GLOVES

Features -

- Powdered Gloves
- For surgical purposes
- ETO sterile
- Prevent contamination
- Available in white colour
- All sizes available 6, 6.5, 7, 7.5, 8

GLOVE'S

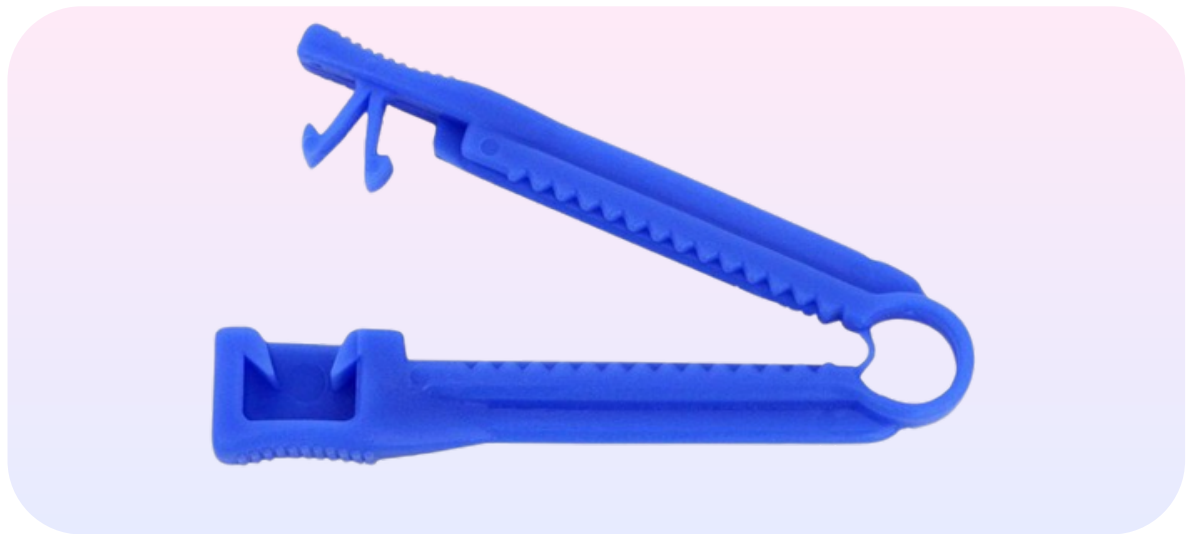

RYLE'S TUBE

Features -

- Smooth close distal end with two lateral eyes.
- Universal Female mount.
- High quality Bio-compatible material.
- Kink resistant PVC tubing with Radio-opaque line.
- Available length 40, 50 & 100 cm.
- Size :- 4 FG to 10 FG. DEHP free material

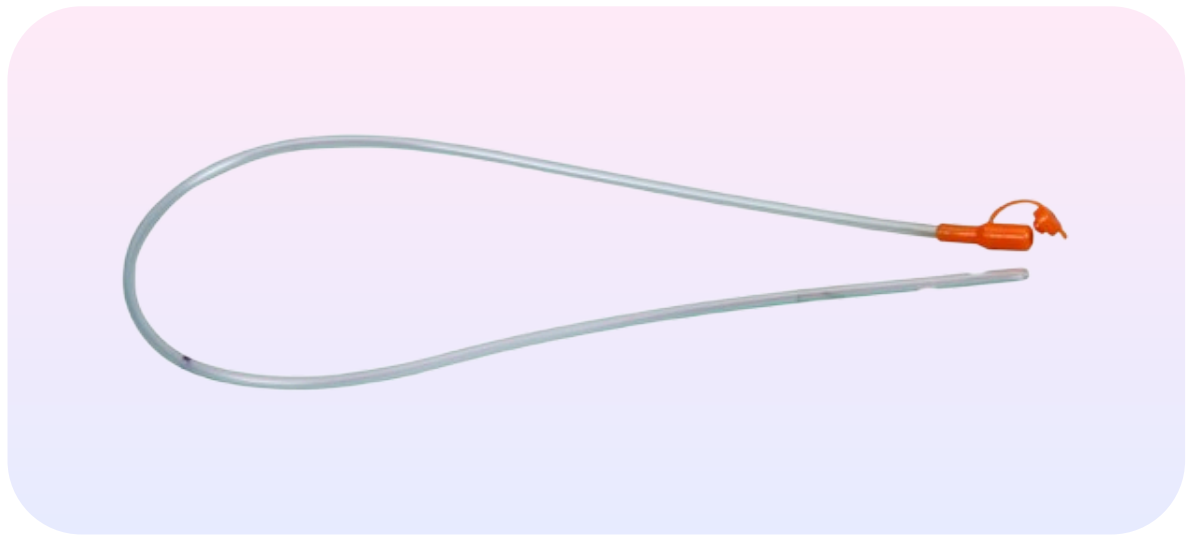

UMBILICAL CORD CLAMP

Features -

- Designed finger grip provision for easy to use
- High quality Bio-compatible material.
- Serration along the length prevent slipping of the umbilical cord.
- Manufactured from non toxic medical grade polymer.
- Easy Re-open facilities.

INFANT FEEDING TUBE

Features -

- Available length 40, 50 & 100 cm.
- Kink resistant PVC tubing with Radio-opaque line.
- Size :- 4 FG to 10 FG.
- DEHP free material.
- Universal Female mount.
- High quality Bio-compatible material.
